

Lifetime Savings

ENERGY STAR® certified bulbs use 70-90% less energy than incandescent bulbs, last at least 15 times longer, and save you about \$80 in energy bills and bulb replacement costs over their lifetime.

Savings figures based on 15,000 hour LED lifetime; 1,000 hour incandescent lifetime; an average lifetime electric rate of 11¢ per kWh; an LED price of \$4; and an incandescent price of \$2.
